

PowerBlock

AC CHARGER FOR USB DEVICES

QUICK START GUIDE

Thank you for purchasing the Griffin PowerBlock. Using the PowerBlock you can conveniently charge your iPod from any 110-240 volt AC outlet in your home or office. Or you can use the included cable to attach your full-size iPod or iPod mini to your computer.

Your PowerBlock is easy to use...

1. Insert The PowerBlock module into any 110v-240v AC wall outlet.
2. Insert your iPod shuffle directly into the USB port on the PowerBlock. The status light on your iPod shuffle will indicate that charging has begun.

OR...

3. Connect the included iPod dock cable to the PowerBlock to allow the charging of various other iPod models such as the full size, 4th Generation iPod with Click Wheel, iPod with color display, iPod mini, and the iPod nano.
